

“Veterans helping veterans through business enterprise.”

Many veterans and civilians are in jobs that do not allow them to use personal skills or talents. The VBOI was established as an organization to assist veterans facing physical and emotional challenges to run profitable business ventures. Now, non-veterans are also welcome to join. The VBOI offers its members:

- Mentors to help throughout all stages of business development.
- Professional advice in the categories of business plan creation, improving daily operations, attaining loans, etc.
- Peer support from likeminded veterans.
- Opportunity to participate in The Business Gymnasium.
- Bi-monthly support group meetings
- Networking events
